

## Oak Ridge High School begins certification process to become a High Reliability School™

---

Oak Ridge High School is pleased to announce their adoption of the Marzano High Reliability Schools™ framework. The HRS framework was created by Marzano Research to help transform schools into organizations that take proactive steps to ensure student success. Using a research-based five-level hierarchy, along with leading and lagging indicators, educators learn to assess, monitor, and confirm the effectiveness of their schools.

Using the HRS framework and indicators, schools can drive sustained, positive, and significant impacts on student achievement by synthesizing multiple complex initiatives into one harmonious system.

This framework, based on 50 years of educational research, defines five progressive levels of performance that a school must master to become an HRS—where all students learn the content and skills they need for success in college, careers, and beyond. Schools must collect data and validate their performance to climb each level of the hierarchy. Certification is determined by Marzano Research analysts in cooperation with school data teams.

### **About Marzano Research**

Marzano Research combines Dr. Robert J. Marzano's 50 years of educational research with continuous action research in all major areas of schooling. An all-inclusive professional learning center, the company provides K–12 educators with solutions for instruction, reflective teaching, curriculum development, leadership, student engagement, and competency-based education.
